"Recensione â€œZhangâ€™s effortless exploration of the complex intersection of memory and perception, and intricate, menace-laden plot is a perfect fit for fans of E. Lockhartâ€™s compelling *We Were Liars*.â€• (Booklist (starred review))â€œZhang does a wonderful job of creating characters. â€¡She creates a plot line that will be believable among most teens about secrets that are and are not shared. This will make a great pairing with Laurie Halse Andersonâ€™s *Speak*.â€• (Voice of Youth Advocates (VOYA) (starred review))â€œA dark, complicated tale, steeped in obsession [and] painful secretsâ€¡this is most definitely a novel that will have fans talking.â€• (Kirkus Reviews)â€œZhang switches between Janieâ€™s thoughts before the fire and Micahâ€™s after, bridging the two with unsettling fractured fairy tales from Janieâ€™s senior English projectâ€¡Zhangâ€™s subject and tone recall books like *Paper Towns* and *Thirteen Reasons Why*.â€• (Publishers Weekly) Dalla quarta di copertina Once upon a time . . . There was a girl named Janie Vivian. And a boy named Micah Carter. And a boy named Dewey. A boy named Ander. A girl named Piper. And once upon a time . . . Janie Vivian declared an apocalypse. And they all fell down. They all fell down. Micah canâ€™t remember when or how or why. But he knows one thing for certain: This is where the world ends. We drive in silence. I study my palms. There are four perfect half moons where my nails dug in, and a fate line that looks normal. Perfectly straight, average length. I used to think that destiny was fluid, because isnâ€™t that the point of every Disney movie and Saturday-morning cartoon? You make your own choices. You decide how life goes. I always thought that your fate line would change if something happened, bam, something goes wrong and the line on your palm goes all wonky to reflect that. Nope. It still looks fine. I dig my nails into my palms again and look ahead. Staring contest, glaring contest. Letâ€™s go, universe. You and me, right here, right now. Advance Praise for *This Is Where the World Ends*â€œZhang weaves a dark, complicated tale, steeped in obsession, painful secrets, and mind-numbing vodka. Readers will be left to decide for themselves whether this is a tragic love story or a psychological thriller; regardless, this is most definitely a novel that will have fans talking.â€•â€¡Kirkus Reviewsâ€œZhangâ€™s effortless exploration of the

complex intersection of memory and perception and intricate, menace-laden plot is a perfect fit for fans of E. Lockhart's™ compelling We Were Liars.â€•â€•"ALA Booklist (starred review) L'autore Amy Zhang was born in China, grew up in Wisconsin, and currently lives in New York State."

**Where the world ends is both bleak and hopeful moving and mythical i especially enjoyed learning about all the different sea birds there s a beautiful illustrated guide at the back of the book of all the species mentioned in the story but where mccaughrean excels is in her creation of the landscape bringing the unpromising brutal nature of the warrior stac to life so vividly**

Answer a the world will not end in 2012 our planet has been getting along just fine for more than 4 billion years and credible scientists worldwide know of no threat associated with 2012 q what is the origin of the prediction that the world will end in 2012 a the story started with claims that nibiru a supposed planet discovered by.
